"It's not dog food, it's food for your dog". In 2019, David a chef and Janine a dog groomer noticed a general lack of excitement around dinner time with their pack. After consulting with their vets Janine and David began feeding their three pups a blend of ground beef, carrots, pumpkin, shiitakes, chicken liver, eggs, spinach, green apples, green beans, vitamins & minerals. Needless to say meal time was much more exciting, the packs overall energy increased, their coats looked amazing, and life was good. Give Bark Bowl's a try today!
